
Carnauba Wax Emulsion

Product Information
420-420.2
Page 1

• GENERAL

Carnauba wax is won from the leaves of a species of Brazilian palm trees. The thin wax film on the leaves is water-repellent in the rain period and protects them from drying out in the sun. What nature created to stand these extremes is really tough.

To maintain the natural properties of a timber flooring, a treatment open to diffusion is important. Two coatings with Floor Hard Oil or Wood Hard Oil solidify the surface. The Carnauba Wax Emulsion applied purely gives additional protection against wear, dirt and water.

• APPLICATION

Surface treatment for oiled and waxed timber and cork floorings, tiled floors and furniture. Added to the wiping water suitable to care for waxed or oiled floorings.

Apply sparingly on polished floors: slip hazard!

• PROPERTIES

- Dirt- and water repellent
- Diffusible
- Antistatic
- Natural shine
- Dilutable with water (solvent is water)
- Pleasant odour
- Quick-setting
- Easy to use

• INGREDIENTS (FULL DECLARATION)

Water, carnauba wax, emulsifier based on natural fatty acid

• USAGE

Application on freshly oiled surfaces

- Observe the required hardening time of the pre-treatment.
- Apply Carnauba Wax Emulsion **thinly** with a soft, lint-free cloth or a broad, soft paintbrush.
- Repeat this treatment from time to time on stressed floors or desktops.

Regular care

- Add 3 tablespoons of Carnauba Wax Emulsion to 8 - 10 l of lukewarm wiping water and wipe floor as usual. The cleaned surfaces get back their shine.
- Very dirty or too thick layers of Carnauba Wax can be removed with 70 - 80°C hot water. Do not use hotter water because the pre-treatment (oil, resin) can be damaged.

• DRYING TIMES

Applied purely approx. 1 hr at 20°C.

• YIELD

Applied purely approx. 60 - 70 m² / litre.

• PACKAGE SIZES

Art.No. 420..... 1 l

Art.No. 420.1..... 5 l

Art.No. 420.2..... 10 l

Please refer to the valid price list for product prices.

• STORAGE

If stored cool, dry and above zero degrees centigrade, the product can be kept for at least 1 year.

• DISPOSAL OF RESIDUES

Dried residues can be disposed of with normal household litter.

• HAZARD CLASSIFICATION

Not applicable, non-hazardous product

• SAFETY ADVICE / NOTES

Keep out of reach of children.

Product is very suitable for allergic persons, but consider possible allergies to natural substances.

The above information has been compiled in accordance with the best of our experience and knowledge. Owing to the application methods and environmental influences, as well as the various surface properties, no liabilities or legalities pertaining to the individual recommendations can be entertained. Prior to application, the suitability of the product is to be tested (trial coat).
