Product Description

DVD: Using Lime in Renovation A practical guide that has proved invaluable as an introduction to builders and home owners new to traditional building maintenance.

The DVD covers many repair and maintenance jobs on traditional buildings using lime putty materials, including:

- building stone rubble walls, - repairing cob walls, lime rendering, - lime plastering onto solid walls and lath, - preparing and re-pointing stone wall joints, - limewashing, - health and safety, - the tools required.
