Product Summary

earthborn®

Product Description

For a healthier alternative to conventional products, Earthborn EcoPro Emulsion is water-borne, acrylic free with the Matt Emulsion offering good levels of breathability.

Earthborn EcoPro Emulsion is also highly practical, offering excellent covering power and providing a wipe-able, anti-static, MATT finish or LO SHEEN on internal

walls and ceilings.

View the Colour Chart [here](#).

Water Vapour Permeability Sd value = 0.02 m (For the matt finish emulsion)

Stylish colour range.

Water-borne (acrylic free).

Excellent covering properties.

Long lasting and hard wearing.

Easy to apply with standard brush, roller or spray.

Low odour, pleasant to use.

Breathable, creating a more comfortable, healthy living environment.

Virtually VOC free.

Earthborn Ecopro Emulsion is virtually free from oils, acrylics and VOCs. It has a high solids content which gives it excellent covering properties and makes it easy to apply. It is wipe-able, breathable, anti-static and low odour.

Preparation

Surfaces must be dry, clean and free of dust and grease. Remove all loose plaster and make good uneven areas with filler. All unstable (flaking/peeling/powdery) paint surfaces should be removed with a brush or scraper. Oil paint surfaces must be lightly sanded.

Application

Stir thoroughly before use. Apply Earthborn Emulsion with a brush, roller or spray gun. For best results, apply 2 coats. For porous surfaces such as new plaster apply an undercoat of Emulsion thinned with water (four parts paint mixed with one part water). Allow to dry between coats.

Coverage

Approximately 8 m² per litre, per coat.

Drying Time

In normal temperatures and humidity, allow 6 - 12 hours drying time between coats. The emulsion is touch-dry after 1-2 hours. The final painted surface is fully wipe-able after 10 days.

Product Attributes

- Size: 10 Litre, 5 Litre
- Finish: MATT, LO SHEEN
