Product Summary

Product Description

Earthborn Silicate Primer is a base coat primer for use with Earthborn Silicate Masonry Paint. Use to stabilise any mineral surface that is very absorbent or loose and powdery.

Earthborn Silicate Primer is a clear primer and thinner. It is VOC free, breathable, and can assist in regulating the humidity of the internal environment. It also helps prevent algae growth.

(Note: Do not apply Earthborn Silicate Primer straight over conventional 'plastic' masonry paints. Some clay surfaces may require special treatment).

Water Vapour Permeability Sd value = 0.06 m

Coverage

3-7 m² per litre
