Product Variants

- Geotextile Membrane - 100m x 4.5m ()
- Geotextile Membrane - 1m x 4.5m ()

Product Description

A vapour permeable, thermally bonded nonwoven, geotextile membrane

with excellent separation & filtration properties, ideal for use in a variety of construction applications. We supply it for use in a build up for a [limecrete](#) or [glasscrete](#) floor.]

Other Applications:

- Separating/strengthening layer under access roads and areas of hard standing
 - Filter surround for trench drains
 - Separation to stop the intermixing of dissimilar soil layers
 - Filtration - allowing the flow of water whilst preventing the passage of soil
-
- Horse arenas - separation of infill materials
 - Filter surround for infiltration tanks

As it comes in a 100m roll (4.5m wide) we cut it down to linear metre lengths as required for ease of carriage.

Product Attributes

- Unit Size: 1m x 4.5m, 100m x 4.5m
