Product Description

H1 Eco Fixings by EJOT are used for anchoring Pavatex wood fibre boards into solid masonry.

H1 Eco fixings consist of a steel pin with an integrated plastic washer and sleeve to provide a thermal break and are hammered into the masonry.

Supplied in units of 100 fixings per box.

Lengths range from 95 mm to 295 mm.

Drill hole diameter = 8 mm.

Washer diameter = 60 mm.

Allow a minimum additional 35 mm embedded in to the masonry.

Properties

Solid steel nail (break-proof).

Low profile washer face.

Plastic injection element to reduce thermal transmission.

Short embedment depth, reduced drilling.

High loads for your security.

Economic anchor usage.

Pre-mounted nail for quick installation.
