Secil Argamassas SecilVit CORK system

Description

This is an assessment of Secil Argamassas SecilVit CORK system, an external thermal insulation system which links the superior thermal performance of an ETICS system with an efficient environmental performance. "SecilVit CORK" is a bonded system with supplementary mechanical fixings used primarily to provide stability until the adhesive has dried and to increase the adherence of the system reducing the risk of detachment. The ETICS comprises components which are factory produced by the manufacturer or a supplier; it is made up on site from these components.

Scope of Registration

Due to space limitations, the Registered Detail certificate should be consulted for the full scope of this registration.
