Secil Silicate paint colour matching service now available!

In addition to our specially selected heritage range of 60 silicate paint colours we can now offer a free colour matching service for our SecilTek Silicate paints to provide you with a near infinite range of colours suitable for any palette! Just provide us with a sample of your chosen colour and let us do the rest.

Appointment to the DEBI board of Directors

As part of our continuing commitment and passion to promote sustainable and ecological business practices we are delighted to announce that our General Manager, Ryan Stojic has joined the board of Directors for the Devon Environmental Business Initiative.

Celebrating its 25th anniversary, the Devon Environmental Business Initiative is a networking organisation set up to inform, support and motivate businesses, of all sizes and from all sectors in Devon, to adopt environmentally sound and profitable business policies and we are proud to be taking such an active part within the organisation.

Build It Live - Bicester

We are attending the Build it live show in Bicester on June 10th and 11th at the Bicester Heritage Centre. Our knowledgeable team will be available to discuss your project, and display some of our sustainable building materials and systems such as: GEOCELL recycled foam glass gravel, natural cork board insulation and ecoCORK insulating lime render. Come and find us on stand C55.

ASBP membership

We're proud to announce that we're now members of The Alliance for Sustainable Building Products (ASBP). The ASPB are all about the physical stuff we build with. They champion products that are better for us and the environment as well as those companies and organisations prepared to push the boundaries. They seek to support industry to make better decisions and legislators to make better policy while working from a position of independence from government and from short term commercial interests.

Building conservation CPD Courses now available

We are now taking bookings for our popular Building Conservation CPD's which are now also recognised by the Institute of Historic Building Conservation (IHBC).

The CPD's are held at our warehouses in Devon, in our newly completed Sustainable Design centre and are especially suited for Architects, Surveyors, Specifiers and Builders wishing to gain a fuller understanding of traditional building conservation.
